Re: Follow-up on Phone Conversation with Mr. Bob Shajary on Plans to Resume Operations at the G-P Gypsum Crescent Claims Quarry (North Quarry M/041/009)

Mr. Haddock,

This letter is thank you for your time and confirm in writing that Georgia-Pacific Corporation (G-P) is intending to resume operations at the G-P Gypsum Crescent Claims Quarry (M/041/009) located in Sevier County, Utah.

Activity at the mine will resume after we complete maintenance on the haul road between the plant and the quarry. We are planning on resuming the same activity we previously have done at this site. This involves mining rock, for our production needs, and backhauling wallboard waste to our landfill that is at the quarry site. Our existing mining plan would remain as currently filed with your agency.

G-P Gypsum has committed to make the landfill comply with DOGM and Utah Division of Solid and Hazardous Waste requirements on our landfill permit at the site.

If you have any questions, then please contact me at 435-896-0891 x328.

Sincerely,

Georgia-Pacific Corporation

Christopher Thompson
Engineering Resource Manager

Cc: Bob Shajary (G-P Gypsum, Regional Mining Manager)
Christopher Barth (G-P Gypsum, Regional Environmental Engineer)
